Questions and terms

The short answers.

Who pays for student licences?

Either the school, through a Suite campus plan, or the family, through ParentDeck Pro per child. Nobody pays twice for the same child.

What are seat fees?

International schools pay 100,000 VND per student and 500,000 VND per parent each year, on top of the campus plan. Private schools and language centers do not pay seat fees.

Can we try before we pay?

Yes. The 30-day free pilot gives small schools and language centers up to 5 classrooms, free setup and no card needed.

What does the founding rate mean?

Teachers: the first 100 keep their price for 12 months. Centers that join through the pilot get 30% off the campus plan for 12 months. Families: the first 200 children get 30% off their first year.

Can we change plans later?

Yes. You can move up to a bigger plan at any time, and founding discounts carry over when a center upgrades to Suite.

Do prices include VAT?

No. Prices exclude VAT, and VAT invoices are available. Prices in USD are approximate, using about 26,300 VND per USD.

Why pay 10 months for a year?

Annual campus plans are priced at 10 months, so you get two months free compared with paying monthly.
